

## SB 517

Governor Schwarzenegger today signed SB 517 (Romero). SB 517, supported by CASP, exempts students with disabilities from the requirement of passing the high school exit exam under certain circumstances. The delayed requirement is in effect for one year and applies to students with disabilities who have been identified to be on a diploma track for graduation in 2006. To be granted a diploma, these students must have had an individualized education program (IEP) as of July 1, 2005, and have completed or be about to complete all other state and local graduation requirements in 2006.
