

Support the California School Psychology Mini-Grant Program

Sign up with eScrip and Albertson's Community Partners Today!

These two hassle-free programs provide new ways for the California School Psychology Foundation to raise funds through everyday purchases at eScrip merchants – such as Macy's, OfficeMax and Big 5 Sporting Goods – and at Albertson's Supermarkets.

You shop. The CSP Foundation receives a cash donation, based on your purchases, for the Mini-Grant Program. You apply for funding through the program to help your students. Everybody wins!

It's easy to participate. Register today!

The purpose of the CSP Foundation's Mini-grant project is to promote effective interventions that address both learning and social/emotional issues that impede a child's success and happiness while embracing individual and group differences in children. The program provides financial support for projects designed to provide direct benefit to students in grades K through 12. Projects must include children as participants and should promote the development of positive assets in children and youth. School psychologists – who have a thorough understanding of the needs of students in their schools – may apply for the grants of up to \$500.
